- Registration is about to begin and the structure of registration is being modified to make it more accommodating for students and to make it an easier process. They are looking for suggestions from students about their experience with registration.
- OCHE is looking at the process for students who are applying to Montana higher educational institutions, and is working on the details for applicants to only need one central application that will be the only application for all institutions. The idea is that instead of filing out an application for each individual institution, there would be one common application and the desired schools of attendance can be selected.

-Kathy Kotecki

- MSUB received a grant from OCHE for dual enrollment students, to host a leadership summit that invites them to campus and experience campus engagement, and they would then have the opportunity to come to campus again for three days over the summer to learn more about campus and what being a full time college student is like.

-Dr. Paul Pope
