HUMAN PERFORMANCE

Overview of the Human Performance program:

Through coursework, research, laboratory and internship experiences, the Human Performance option prepares students with a thorough understanding of human movement and exercise science.

The Human Performance option is structured to prepared students for national certification examinations in Strength and Conditioning, Exercise Physiology and Health Coaching. A degree in Human Performance also prepares students for graduate education in Athletic Training, Exercise Physiology, Kinesiology, Occupational Therapy, Physical Therapy and Physicians' Assistant.

What makes your program unique?

The new Yellowstone Science and Health Building includes state of the art laboratory facilities and classrooms where students learn practical skills they will utilize in the field. Small class sizes and experienced faculty give students the edge in learning employable skills.

What students like most about the Human Performance program:

Students enjoy working with faculty, participating in internships, and conducting research to accomplish their academic goals and earn their degree.
