

ACCOUNTING

What is Accounting Technology?

The technical skills of a qualified accounting professional are needed by every business in America, large or small. The Accounting Technology program provides you with the basic knowledge of accounting processes necessary for employment. After completion, you will be able to record day-to-day financial transactions and prepare summary statements of business conditions. You will also learn how to use the latest computerized accounting software.

College Degree Offered:

Accounting Assistant: Certificate of Applied Science
Accounting Technology: Associate of Applied Science

Both options are also offered on-line. To find more information on our on-line courses please go to www.msuonline.org

What you will learn:

- How to prepare summary statements of business conditions for small businesses or government agencies
- How to utilize basic business computer applications, such as Excel, Access, and Word
- How to utilize computerized accounting software
- How to process daily accounting transactions, journals, and ledgers and handle other entry-level accounting functions
- How to prepare financial statements
- How to prepare payroll functions
- How to manage cash and accrual accounting
- How to handle accounting for sole proprietorships, partnerships, and corporations
- How to communicate professionally, both in person and in writing

Prospective Employers:

- Banks
- Public & private accounting firms
- Universities and school districts
- Large and small businesses
- State and municipal government
