

AUTOMOTIVE

What is automotive technology?

As an Auto Technician, you need to think, decide, and act whenever a problem is brought to your attention. In the Auto Technology program, you will learn how to service, troubleshoot, and repair automobiles and light trucks. The automotive program and faculty are ASE (Automotive Service Excellence) certified.

What you will learn

- GAS ENGINES— MANUAL DRIVE TRAIN AND AXLES: The design, operation, diagnosis, and service procedures of automobile and light truck engines.
- ELECTRICAL SYSTEMS AND ENGINE PERFORMANCE: Engine performance, electrical emission control, fuel, and computerized engine control systems.
- AUTOMATIC TRANSMISSION/ TRANSAXLE: The design, operation, service, and overhaul of modern automatic transmissions and transaxles.
- CHASSIS/INDUSTRY PRACTICES: The design, operation, diagnosis, and servicing procedures for suspension steering, alignment, braking, and related systems.

Certifications preparing for

Students are also encouraged to study for and take the ASE certification tests. The college now offers a test preparation course.

Type of college degree

Certificate of Applied Science (9 month)
Associate of Applied Science degree (two-year)
