City College MSUB Radiologic Technology Program

Introduction

This document is designed to explain the roles and responsibilities of all those involved in the Radiologic Technology Program at Montana State University Billings City College. It should be consulted whenever questions arise concerning the issues covering program policies and procedures.

Every effort is made to notify everyone involved when these guidelines are altered in any way. All students will be subject to policy changes after the effective date. For policies not listed in this manual including harassment issues, consult the City College/MSUB student handbook.

Mission

The mission of the Radiologic Technology Program of Montana State University-Billings City College is to offer an Associate of Applied Science Degree in Radiologic Technology that will produce quality entry-level radiologic technologists to meet the needs of the student, community, state and nation. The program will offer high quality educational and clinical experiences to obtain this objective.

Purpose

The Radiologic Technology Program of Montana State University Billings City College provides quality-learning opportunities for its students in order to accomplish its mission. It also encourages and supports lifelong learning. The radiography program will prepare students to meet the demands of the profession. This includes technical skills as well as the ability be intellectually adaptive, to communicate well, to think analytically, to integrate knowledge, and to appreciate cultural and social diversity. It is the intent of this program to encourage high ethical values and standards of practice in regard to patient care in the healthcare field.

Program Goals

Goal 1: Students will function as a clinically competent, entry-level radiographer who will produce diagnostically useful radiographic images.
  • Students will function as competent, entry-level radiographers.
  • Students will produce diagnostically useful radiographic images.

Goal 2: Students will exhibit critical thinking in their role as entry-level radiographers.
  • Students will exercise independent judgment and critical thinking skills in the technical performance of radiologic technology procedures.
  • Students will adapt procedures to accommodate patient’s condition.

Goal 3: Students will practice effective communication.
  • Students will practice effective communication with patients, co-workers, family members and other medical professionals.

Goal 4: Students will exhibit professional behavior.
  • Students will perform procedures in a manner that reflects professionalism, ethical and compassionate care. Educational Outcomes Program Effectiveness outcomes
Educational Outcomes

| Program Effectiveness Data for CC MSUB 2019 Graduates (*JRCERT defined) and Our 5 Year Averages (2015-2019) |
| City College | Completion Rate (%) | ARRT 1st Time Pass Rate (%) CC MSUB/National | Job Placement Rate |
| Montana State University, AAS Radiologic Technology | 2019 | 100 (14/14) | 92.9 (13/14)/89 | 100 (14/14) |
| | 2018 | 92.8 (14/15) | 64.3 (9/14)/89.4 | 85.7 (12/14) |
| | 2017 | 76.9 (10/13) | 80 (8/10)/89.3 | 100 (10/10) |
| | 2016 | 100 (11/11) | 100 (11/11)/87.2 | 100 (11/11) |
| | 2015 | 100 (12/12) | 75 (9/12)/88.4 | 100 (12/12) |
| Montana State University, AAS Radiologic Technology | 90.16 (55/61) | 81.9 (50/61) | 96.72 (59/61) |

Note: (Numerical data located in parenthesis indicate; 1) Completion Rate, the number of students whom started the program divided by the number of students who completed the program; 2) ARRT 1st Time Pass Rate % CC MSUB/National 1st Time Pass Rate indicated the number of students whom passed the ARRT exam the first time divided by the number of students whom took the exam in the program within a 12 month period from graduation as compared to National ARRT 1st Time Pass Rate (i.e.: 92.9 (13/14)/89) in the same 12 month time period, and 3) Job Placement Rate indicated the number of students whom completed the program divided by the number of students whom obtained employment in the field upon 12 months from graduation).

1. **Completion Rate**: Number of students completing the program/total number originally accepted into the program. There is no distinction between students who failed and students who decided to change majors for any reason.
2. **Examination Pass Rate**: Percentage of graduates who passed the ARRT (R) national exam on their first attempt.
3. **Job Placement Rate**: Defined by JRCERT as the number of graduates employed in the radiologic sciences compared to the number of graduates actively seeking employment in the radiologic sciences. JRCERT has defined not actively seeking employment as: 1) graduate fails to communicate with program officials regarding employment after multiple attempts, 2) graduate is unwilling to seek employment that requires relocation, 3) graduate is unwilling to accept employment due to salary or hours, 4) graduate is on active military duty, and /or graduate is continuing education.

Visit the JRCERT website (http://www.jrcert.org) to learn more about program accreditation. The Joint Review Committee on Education in Radiologic Technology
(JRCERT) follows due process upon receipt of a written, signed complaint containing allegations which indicate that an accredited program, or programs seeking accreditation, may not be in substantial compliance with the relevant accreditation standards or may not follow JRCERT accreditation policies.
