

### Mountain States Poll

October 2019

32<sup>nd</sup> edition

Dr. Jason M. Adkins, Director

#### Acknowledgements

I would like to extend my thanks to everyone who participated in the Mountain States Poll this year. The poll would not have been able to be fielded without the financial assistance from the Provost's Office. I also want to thank Brenda Dockery and Jessica Perius for their help in setting up the computers and telephone systems necessary to carry out the poll. My students in PSCI 342: Media, Public Opinion, and Polling course deserve much of the credit as they sacrificed a lot during the week in order to make phone calls. In addition, students from Dr. Adkins PSCI 220: Introduction to Comparative Government course and Jessie Perius' BNKY: Sales and Sales Managements course also made calls for the poll. Last, but not least, is the help provided by Glenda Holbrooke, who provides administrative support for the Department of the Social Sciences and Cultural Studies.

#### **Student Participants**

#### PSCI 342: Media, Public Opinion, Polling

Tristan Belgarde	A	Austin Hulbert
Jaycie Boe	I	Brigham Jessen
Taylor Burris	J	larren Keller
Rahkei Eyer	I	Lucy Kramer
Dalton Hafner	I	David Larson
Taylor Heady	A	Ann Mickunas

#### **BMKT 436: Sales and Sales Management**

Abdulmajeed Algassim	Garrett Horton
Mohammed Almotair	Kali Lempka
Abdulelah Altorki	Kelli Mattson
Ammar Bin Sarwar	Arvind Sevalingram
Sydney Brost	Jonelle Schock
Matthew Harrison	Emma Tucker
Arnaud Lauger	

#### **PSCI 220: Introduction to Comparative Government**

Matthew Anderson	Timofei Imkin
Jael Birdinground	Zach Reiter
Paul Cuevas	Kristina Rentz
Dillon Gonglliewski	Saige Vacca

#### Introduction

The Montana State University Billings Poll was first conducted in 1989. This year marks a new chapter with the launch of the Mountain States Poll. The poll includes Montana, and for the first time, Wyoming, for the 32<sup>nd</sup> edition of the poll and the 30<sup>th</sup> year the poll has been conducted. This report summarizes the results of a statewide random sample of 215 adult residents of Montana and 177 adult residents of Wyoming identified as likely voters. Approximately 82 percent of the survey respondents were contacted via cellphone and 18 percent were contacted on landline telephone numbers. Randomly generated telephone lists were purchased by MSUB from Scientific Telephone Samples based in Rancho Santa Margarita, Calif.

The Mountain States Poll was conducted from October 7-12, 14, and 16, 2019, in the Market Research Lab on campus. Students enrolled in PSCI 342: Media, Public Opinion, PSCI 220: Introduction to Comparative Government, and BMKT 436: Sales and Sales Marketing served as telephone surveyors for the poll.

The margin of error for the Montana sample is 6.7 percent and the margin of error for the Wyoming sample is 7.4 percent. Various subgroups have larger margins of error. Crosstabulation results by sex, age, education, party affiliation, and religion are included for questions related to approval ratings on a variety of items and questions regarding most Republican primary races. Subgroup cross-tabulation results are limited to age and education for most Democratic primary races due to a small sample size of respondents who indicated they would vote Democratic primaries in Montana and Wyoming. Cross-tabulation results are also not present in some questions due to small sample size of subgroups. The sample was weighted for sex, age, race, age, and education based on Census Bureau estimates of the voting-age population in Montana and Wyoming, and for party affiliation for Wyoming respondents based on data provided by the Wyoming Secretary of State's office.

#### I. U.S. Issues

1a. If the Democratic primary for president were being held today, for whom would you vote for (Montana respondents who indicated they would vote in the Democratic primary in June 2020).
