Title IX Sexual Assault /Harassment

Title IX of the Education Amendments of 1972 is a federal law that prohibits sex discrimination in education and its implementing regulation, at 34 C.F.R. § 106.31 (a), which provide that no person shall, on the basis of sex, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any academic, extracurricular, research, occupational training, or other education program or activity operated by the university.

Sexual harassment is a form of sex discrimination prohibited by Title IX. Sexual Harassment includes: unwelcome sexual advances, requests for sexual favors, or other verbal or physical conduct of a sexual nature, including sexual misconduct. Sexual harassment, including sexual misconduct, can involve persons of the same or opposite sex. Sexual harassment occurs when the terms or conditions of employment, educational benefits, academic grades or opportunities, living environment or participation in a University program is conditioned upon, either explicitly or implicitly, submission to or rejection of unwelcome sexual advances or requests for sexual favors, or such submission or rejection is a factor in decisions affecting that individual’s employment, education, living environment, or participation in a University program.

Sexual Harassment also includes hostile environment harassment based on sex which is severe, pervasive, or persistent and interferes with academic performance. Anyone with questions or concerns about sex discrimination or harassment or who believes they have been a victim can use the link below to contact Title IX Coordinator and review policy http://www.montana.edu/policy/discrimination/. Mandatory Employee Reporting: To enable the University to respond effectively and to stop instances of sexual harassment and sexual misconduct involving students at the University proactively, all University employees must promptly (normally within 24 hours) report information they have about alleged or possible sexual harassment and sexual misconduct involving students to the Title IX Coordinator. Employees, such as licensed health-care professionals and victim advocates who have a statutory privilege under Montana law, are exempt from these reporting requirements.

Upon receiving a report of alleged or possible sexual harassment, or sexual misconduct, the Title IX Coordinator will evaluate the information and determine what further action should be taken, following the procedures described in the Discrimination Grievance Procedures. The Coordinator will take steps, either directly or through a reporting employee, to provide information about the University’s Discrimination Grievance Procedures, as well as available health and advocacy resources, and options for criminal reporting.
