
Windows Phone Guide to Setup Exchange email

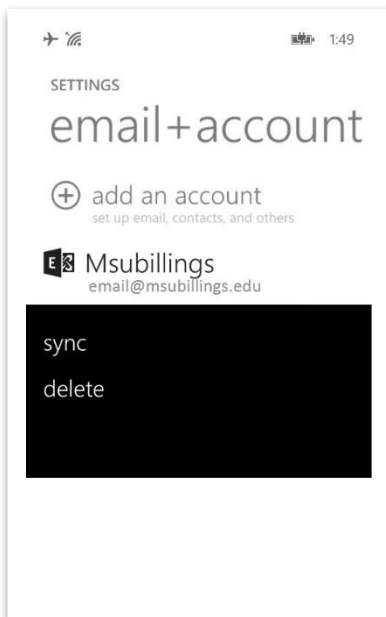

Following your migration to Office 365, you'll need to remove your current email account and re-add an account with the new settings.

To remove your current Exchange account:

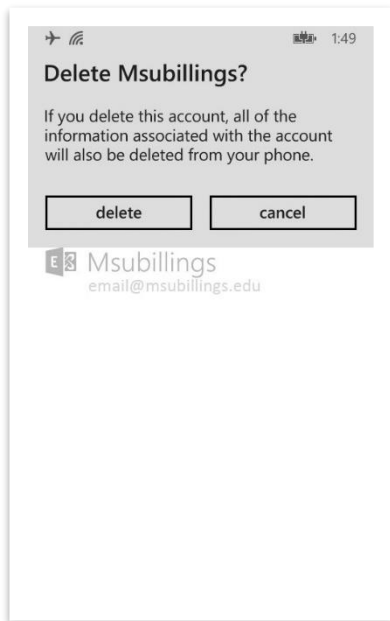

- 1) Go to the Settings on your phone.

- 2) Select email+accounts.

- 3) Long press your exchange account and select delete.

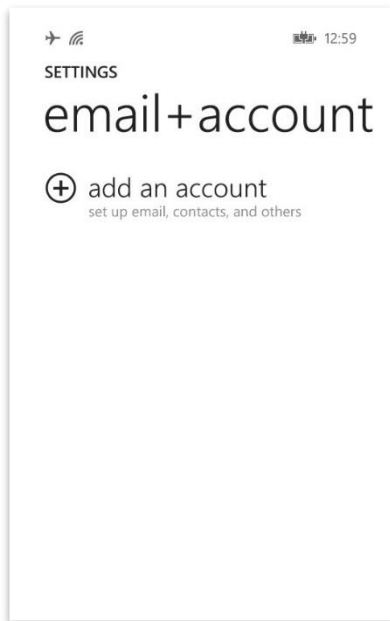

To add a new Exchange account:

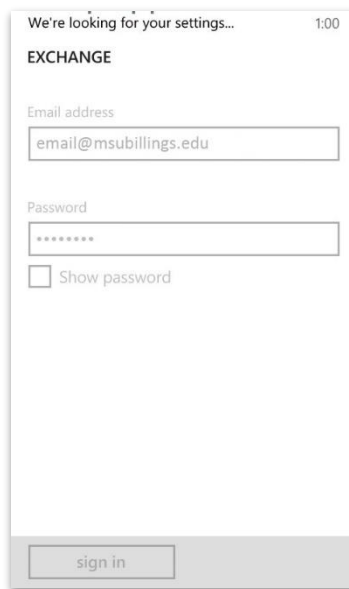

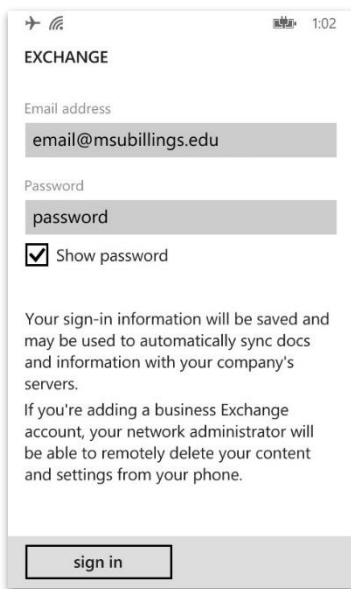

- 1) Go to Settings on your phone and select email+accounts.

- 2) Select add an account

3) Enter your @msubillings.edu email address and your Windows password. Then click sign in.

4) Your account will now show up on the home screen.
