Following your migration to Office 365, you’ll need to remove your current email account and re-add an account with the new settings.

**To remove your current Exchange account:**

1) Go to the Settings on your phone.

2) Select email+accounts.

3) Long press your exchange account and select delete.
To add a new Exchange account:

1) Go to Settings on your phone and select email+accounts.

2) Select add an account
3) Enter your @msubillings.edu email address and your Windows password. Then click sign in.

4) Your account will now show up on the home screen.
