

To reestablish your wireless connection to MSUB-mobile, you will have to reauthenticate to the network with your NetID as the Username.

1. Click on the Wi-Fi on the top right 

2. Click **Open Network Preferences...**

3. Click the **Advanced** button

4. In the list of Preferred Networks, Delete any MSUB Connections

5. Click **OK**, then **Apply**. then close the window

6. Go back to the Wi-Fi icon

7. Select MSUB-mobile

8. You should be prompted for a login. Enter your NetID and then your password.

9. Click **OK**

10. At the **Verify Certificate** prompt, click **Continue**

11. You should reconnect to the MSUB-mobile wireless network.
