

Project Proposal Checklist: *Submit one copy per project*

Please review the following list. If your project involves any of the following areas, your project must be approved by the Science Expo before you can begin your experiments. You will also need to include the additional information listed under each topic that would apply to your project.

If you have any questions or need assistance, please call the Science Expo office at 406-986-5872

Human Subjects: After reading the Human Participants section in the Handbook, does your study need to include Human Informed Consent Forms (4)? ___ yes ___ no

Non-human Vertebrate Animals: After reading the Vertebrate Animals section, does your study need to include Vertebrate Animal Form (5A)? ___ yes ___ no

Pathogens: After reading the Potentially Hazardous Biological Agents section, does your study need to include the Risk Assessment Form (3)? ___ yes ___ no
and the Potentially Hazardous Biological Agents Form (6A)? ___ yes ___ no

- You should not work with known pathogens or potential pathogens in a home environment.

Human or Non-human Animal Tissue (i.e. human or animal parts including tissues, organs, teeth and body fluids such as saliva, urine and blood): After reading the Potentially Hazardous Biological Agents section, does your study need to include
the Risk Assessment Form (3)? ___ yes ___ no
the Human & Vertebrate Animal Tissue Form (6B)? ___ yes ___ no

Recombinant DNA

- All studies involving recombinant DNA must be conducted in a research institute or laboratory under the direct supervision of a Qualified Scientist.

Hazardous Substances (i.e. chemicals, radioactive substances and radiation): After reading the Hazardous Chemicals, Activities or Devices section, does your study need to include:
the Risk Assessment Form (3)? ___ yes ___ no

Hazardous Devices (i.e. firearms, welders, laser and voltages greater than 220 volts): After reading the Hazardous Chemicals, Activities or Devices section, does your study need to include:
the Risk Assessment Form (3)? ___ yes ___ no

Hazardous Activities: After reading the Hazardous Chemicals, Activities or Devices section, does your study need to include:
the Risk Assessment Form (3)? ___ yes ___ no

Controlled Substances (i.e. prescription drugs, alcohol and tobacco): After reading the Hazardous Chemicals, Activities or Devices section, does your study need to include:
the Risk Assessment Form (3)? ___ yes ___ no

If you answered yes to any of the above questions, a qualified adult who will ensure your safety and/or the proper treatment of your subjects must supervise your project.

List the name and obtain the signature of the adult who will supervise your project.
