*WRIT	321	Advanced Technical Writing	3			
* Other Humanities Course			3			

\*May satisfy MUS Core requirements

#### Electives

#### BACHELOR OF SCIENCE DEGREE IN NURSING

Categories	Credits	Earned	Remaining
MUS Core	31	_____	_____
Required Nursing Courses	*33	_____	_____
Other Required Courses	*16	_____	_____
Prior Nursing Courses and Electives	**40	_____	_____
Total	120	_____	_____

\*Some courses may satisfy requirements in the MUS Core resulting in fewer credits.

\*\* The total number of elective credits will be determined by the number of courses a student elects to take which fulfills both the MUS Core requirements and the major requirements.

Montana State University Billings  
RN to BSN Degree Completion Program  
Fact Sheet

**Program Description:**

Montana State University Billings Bachelor of Science in Nursing (BSN) Completion Program advances nurses' careers by preparing nurses for a range of practice environments, for administrative duties, and for graduate education (including advanced practice nursing to provide access to care in underserved areas of Montana). All nursing courses in the program are offered in an online format.

**Program Purpose:**

To build upon the Registered Nurse's prior knowledge and prepare graduates to practice theory and research-based nursing interventions in a complex healthcare system.

**Acceptance in the BSN program is based on:**

1. Admission to Montana State University Billings.
2. Submission of official transcripts from all colleges/universities for evaluation.
3. Evidence of a current unencumbered Montana license as a Registered Nurse (RN) and/or proof of scheduled NCLEX exam date.

**Background Check**

Students are not required to complete a background check as students are required to hold an unencumbered RN license through the state in which they live. The Program Coordinator will pull a current verification of licensure upon acceptance into the RN to BSN program. Students are not doing direct patient care; they are completing faculty-led clinical mentors activities and projects in this program.

**Immunization:**

If you were born after December 31, 1956, submit proof of immunization that was administered after December 31, 1967. The immunization dates must also be after your first birthday. Requirements include proof of two (2) doses of immunization against measles (Rubeola) and two (2) doses of immunization against Rubella given at least 30 days apart. Include month/day/year. Any immunizations administered after June 11, 1993, must be an MMR. A physician, health agency, or school official must sign the record. Proof of immunization will be required once the student is accepted into the Program.

**Learning System Requirements**

The Learning System Requirements used at Montana State University Billings is Desire to Learn.

**General Information**

A grade of "C" or higher is required for all nursing courses (NRSG) AND a "C-" or higher is required for all non-nursing courses within the Degree Completion Program curriculum. All RN to BSN nursing (NRSG) courses must be completed within two (2) attempts. If students are unable to complete any nursing course within two (2) attempts, this may be grounds for removal from the program. Degree Completion students must complete the program within **three (3) years** of being admitted.

Completion of a degree in nursing is costly. We try to limit the number of resources students purchase by using open access resources where appropriate. Once accepted into the Degree Completion Program (following ASN graduation), students are assessed an \$800 program fee each semester.

Please be aware that many of the courses are only offered once a year. The student should work with his/her advisor to make certain a plan of study/advising worksheet is completed with this in mind.

All announcements for the Program and essential communications will be via e-mail (Montana State University Billings account).
