How to Dress for Every Type of Job Interview

Since there’s no one “right” way to dress for an interview … How do you choose an interview outfit?

1. Start with thinking about how to match your outfit to the workplace or industry norms.
2. Check out the company’s website and social media as this may clue you in on the company’s dress code. You can often find this in the “About Us” or “Meet Our Team” sections.
3. Choose clothing that matches the climate and season.
4. Check for wrinkles, stains, pet hair or any noticeable defects.
5. Ensure clothing is clean and wrinkle-free.
6. The night before the interview lay out or hang up your outfit to save time.
7. Ask your Career Specialist and use your best judgment- don’t overthink it!

Industry Norms
There are different expectations depending on formality or industry that you are wanting to work in and what you wear for an interview may also vary based on the job title/potion and location. It’s best to do your research on the company by reviewing the company website, explore social media pages, or speak with someone in the industry to gauge company culture/appropriate garb. Your Career Specialist can help you get started!

Virtual Interviewing
Dress how you would for an in-person interview! Set up in a quiet space where you won’t be interrupted or distracted, do not use your phone- use a computer camera if possible, think about what’s in the background (is it cluttered), and be sure that there is enough light in the room where the interviewer can see your face and that you’re not back lit. See your Career Specialist for more tips!

Personal Presentation
In a meeting with a potential employer, you want to be remembered for your skills and presence, not your physical presentation. Basic personal care is strongly recommended- wash/style your hair and keep it tidy, nails and makeup should look natural and clean. In conservative fields and workplaces, tattoos may be expected to be covered or there may be a dress code to be aware of. Avoid wearing strongly scented lotions, colognes, and perfumes.
Employers can legally have an expected appearance policy for grooming, as long as laws enforced by the U.S. Equal Employment Opportunity Commission (EEOC) are not violated.

**Religious Garb**
Title VII of the Civil Rights Act of 1964 prohibits employers with at least 15 employees from discriminating in employment based on race, color, religion, sex, or national origin. Protected religious observances or practices include attending worship services, praying, wearing religious garb or symbols, displaying religious objects, or refraining from certain activities.

Shopping on a Budget
Interview attire can be expensive, but armed with the examples and knowledge from above, it is possible to find items that match your industry that you can wear multiple times. Some places to start with in Billings are:

- Dress for Success (talk with your Career Specialist first)
- Gratitude in Action (https://www.giamt.org/about-us-1)
- Runway Fashion Exchange (https://www.facebook.com/RunwayBillings/)
- TJ Maxx, Ross
- Walmart

What Not to Wear
- Avoid clothes that are too small or too big
- Avoid clothes with holes in them
- Avoid clothes that are dirty or smell (ask a friend to do a smell test)
- Avoid low necklines and high hemlines
- Be aware of the fabric you’re wearing- think about the climate or season. For example, wool will be too hot for Montana summer and you’ll end up being uncomfortable.

What if I’m attending a hiring event?
