ATHLETIC TRAINING, MS

Overview of the Athletic Training program:

The Master of Science in Athletic Training program is a two-year program designed to teach students the knowledge and skills to successfully challenge the Board of Certification (BOC) examination and become a certified athletic trainer. The program provides students with didactic and a variety of clinical education experiences throughout the community, state, and nation.

Currently, athletic training professionals work in secondary schools, colleges and universities, professional sports, clinics and hospitals, performing arts, occupational health, physician's offices as well as public safety.

What makes your program unique?

At MSU Billings, students have the choice between a two-year traditional master's program or a 3+2 bachelor's and master's degree option with Human Performance and Athletic Training. Athletic Training students at MSU Billings also have a full semester clinical immersion experience during their second year in the program.

What students like most about the Athletic Training program:

Students enrolled in the Athletic Training enjoy their various clinical rotations where they can apply their knowledge and skills learned in the classroom.
