Developing a Plan of Study

To facilitate course planning and scheduling, students should be aware that not all courses are offered every semester. Some courses require pre-requisites and preparatory courses to be successfully completed or co-requisites be taken simultaneously.

Program Specific Information

Students should know the following information:

- Currently the Human Resources Associate of Science degree and Certificate of Applied Science is also fully offered online.
- It is not recommended that students take all seven credits of science in the same semester.
- When planning out the classes you plan on taking each semester, please pay close attention to the required courses. There are several courses that are only offered in specific semesters. Please plan accordingly.
- TASK 294 or BMGT 298 is typically taken towards the end of completing this degree.

2016-2017 Human Resources General Applied AS Plan of Study
