WHAT CAN YOUR LIBRARY LIAISON DO FOR YOU?

Did you know that each academic department has its own, specific Library Liaison? Your Library Liaisons are available to help with any and all of your Library-related needs! In collaboration with faculty, Library Liaisons can create Research Guides for your students or prepare customized Instruction Sessions for specific assignments or topics. These Guides bring together all of the most relevant Library materials for your class or assignment, all in one online location. Library Liaisons can discuss course content, and ideas to support Open Educational Resources (OER) in your classroom for more accessible materials. Each Liaison is an expert on what resources the Library might have related to your subject discipline. Library Liaisons are eager to build a relationship with faculty that will help your students find academic success in partnership with all the Library has to offer!
