

Policy Number: 104.2

Policy: Requests for Service

Effective Date: 08/01/2011

Revision Date: 06/01/2017

Approved by: Scott Forshee, Chief of Police

Recognizing the need to provide services to the campus community, the University Police department is committed to provide such assistance. The purpose of this policy is to establish guidelines for Officers called to provide service to the campus community and for handling requests from faculty involving potentially disruptive students, either in the classroom or office setting.

Public safety is the primary function of the University Police Officers, however on a priority basis officers are tasked with conducting the following services: Building Safety Checks, Safety Escorts, Fire Code Inspections, Lockout Services, Motor Vehicle Assistance (access to passenger compartment only and jump starts), Presentations and Lost & Found.
