Once you setup a password you will be able to sign into the Housing Portal to complete your application or exemption form. You will use the following for the username: msubillings\your netid." A prominent dark blue button labeled "Create NetId Password" is centered. At the bottom, a small note says: "As students consider on campus living, we encourage them to look closely at what their costs might be to live off campus."

If you have your NetId password and you click on the Login here is what you will see. You will use your msubillings email address

You are now at the *Profile page*, please answer the questions as true as you can. This will help match you with a possible roommate when you search for them, and it is used by the system to auto-allocate a roommate with you if you don't have one and are in a double room.

Room Preferences help with the auto-allocation part of the rooming as you will get a chance to sign back in during your timeslot to pick a room and your meal plan. If you miss all your timeslots throughout the summer, then this will help place you in an open spot by our system. You must pick three options, after your first option you will click ADD PREFERENCE button in blue to add the next option you have. (Remember this is **ONLY** a Preference in case you don't pick a room.)

Room Preferences

I would like to be accommodated in the following hall and room(s) preference, but understand that my first or second request may not be available (remember these are only preferences as you will be picking your room except for Spring Only Applications). You will need to add three preferences and you will use the Blue Add Preference button on the right to add the next choice.

Next is the *Housing Contract*.... PLEASE read it over you can also print it off for your records. You will need your student ID number here; it is the dash 0 number.

The *Armory Contract* is next, firearms are not allowed on campus, but they can be stored at Campus Police under the policy listed. Everyone is required to sign this as well and you again will need your student ID number.

Everyone is highly recommended to have renter's insurance as not all home policies will cover loss or damage in the halls. You should have your parents check with their agent on this and you have the option to accept or decline and you can always come back to add it later. They will not charge you without verifying you still would like the coverage and not until school starts.

Step1:

GradGuard College Renter's Insurance

As noted in your Academic Year 2020-2021 housing contract, MSU Billings assumes no responsibility and provides no insurance or financial protection for student's personal property. By not carrying protection while on campus, you understand that you are fully responsible for your personal property and any damages you cause while living on campus.

All campus residents are eligible to protect their belongings through GradGuard's exclusive student endorsed renter's insurance program. For about \$12 per month, you will receive protection in the case your property is stolen or damaged.

You will now be at the application fee and final part of your application. This must be paid by credit card to complete your application so you will be assigned a timeslot to pick a room and meal plan when the time comes.

Please have your credit card ready to pay your \$125 application fee, which will be a pre-payment to your account. The application fee is needed to complete your application so you can move on to the next steps.

After paying your application fee you can start *searching for roommates*. You will sign back into the housing portal, click on apply now, pick the term again and then if it does not take you right to the Roommate Section you can click on it at the top:

Roommate Requests

You will then see three options in the bottom right corner:

[Search for Roommates by Details](#)
[Search for Roommates by Profiles](#)
[Suggest Roommates](#)

You can search for a roommate by name if you already know of someone (that person must have entered a Screen Name); you can search using the profile questions and picking what is the most important to you; or you can use what the system suggests based on your profile questions you answered. Once you find a student or two you can email them through the system to start your communication and they will not have your direct email until you would like to share that. You would both need to agree to be roommates and then whoever has the earliest timeslot will be able to assign both into a room and bed space, but the other person will still need to pick a meal plan, or one will be assigned. (It will say you are in a Roommate Group, but we don't have groups, it will just be you and your roommate.)

Timeslots are a day and time that you will be able to sign back into the Housing Portal to pick a room and meal plan. The slots are usually 30 minutes long and are assigned based on when you have completed your application...the earlier it is completed the better your slot. We will do timeslots about 5 times during the summer with the first starting the end of May. In mid-August the system will auto-allocate those without rooms and/or roommates, so you might have to move rooms. Be sure to check

your status by logging back into the portal and you will see it on the first page. We have the right to have students move before the halls open to adjust for cancellations and room moves/requests.

When the time comes for you to pick your room you will sign back in, apply for housing, pick the term and be taken to the *Room Search*. You will pick a Hall and then a room type (rooms are the same size for the singles and the doubles):
