All new course syllabi are approved as to content but with the understanding that the new faculty hired can and will alter the syllabi.

The question was raised as to whether the College of Technology would have funding, facilities, and equipment for the many new programs submitted. Bob Carr, Dean, COT, confirmed that there would be funding, facilities, and equipment. Particularly in the Medical Assisting degree, the students will work in other places besides in the COT building, using equipment from those places. In many cases, the COT will not even need to acquire new equipment.

The meeting adjourned at 5:30 p.m.

The next meeting will be in the Fall 2002 semester. Officers will be elected by electronic vote.
