How We Help

Montana PTI provides online resources and individualized assistance to help parents and professionals support and enrich the lives of children with disabilities.

Our goal is to provide support, information and tools to families to help them make informed decisions as equal partners in their child's education.

We are available to help with your questions about special education, school services, and resources. We can assist by providing you with information and referrals to programs that can meet your child's and family's unique needs. We can also help you brainstorm options and solutions. We do not provide legal advice or legal representation.
